SHADES BY MATISS

# RECESSED SHADING SOLUTIONS **POCKETS**

# Contract Series
# Specialty Shading Solutions
## A Pocket for Every Shade

Retain design integrity with complete window-to-wall recessed shade pocket systems from Shades by Matiss. Designed to meet today's commercial project needs, our shade pocket systems are made with high-strength aluminum that is both workable and resistant to corrosion.

Constructed to work with Shades by Matiss Contract Series motorized or manual shade systems, the simple pocket design can also be paired with other shading systems while still allowing shades to seamlessly disappear.

BENEFITS
- Available with and without a ceiling tile support flange for drop-ceiling applications
- Removable bottom closures available for single and dual shade systems make installation and maintenance easy
- Aluminum composition retains structural integrity while allowing for on-site cutting
- Extrusions are 10' in lengths to allow for easier transportation and navigating on job sites
- Endplates are rotationally symmetrical for ease of installation
- Reduced lead times due to domestically stocked inventory

are easy to install and add a completed
look to any shading project

SHADES BY MATISS

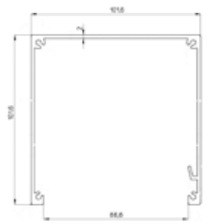

# AP Series
## Ceiling Pockets
## One Series, Infinite Possibilities

The AP Series ceiling pocket family from Shades by Matiss are our all-purpose solution for recessed shading applications. These pockets are the smart choice for flexibility and adaptability for your next commercial project. Size options include square 4", 5" models, as well as an oversized 7"x 9" version in 10' Lengths. All sizes are available with or without a ceiling tile lip for drop-ceiling integration. All options are made with aluminum and are offered in a powder-coated white,

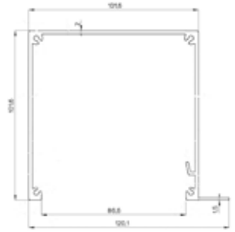

# Custom
## Ceiling Pockets

Custom ceiling pockets are available in custom sizes, custom lengths, custom colors, and even custom designs. The aluminum construction allows for on-site cutting for a cleaner fit. Add end plates and bottom closures to complete the look.

# Additional Closure Options
## Ceiling Pocket

Accessories
To complete the appearance of Shades by Matiss Contract pockets, we offer end plates and removable bottom closures to deliver a finished, sleek look while providing easy access to shades after installation.

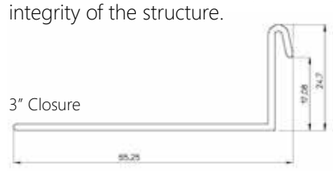

## Bottom Closures

Bottom closures are available in 2 widths:
2" and 3" for single and dual shade applications. Bottom closures hide the shades when looking directly up from below.

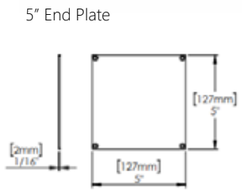

Bottom closures are available in a powder-coated white finish to match the aesthetic of the ceiling pockets and are easy to install or remove for maintenance.

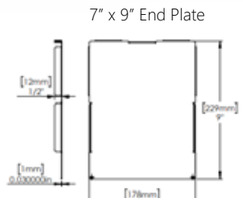

These aluminum bottom closures allow for on-site cutting without compromising the integrity of the structure.

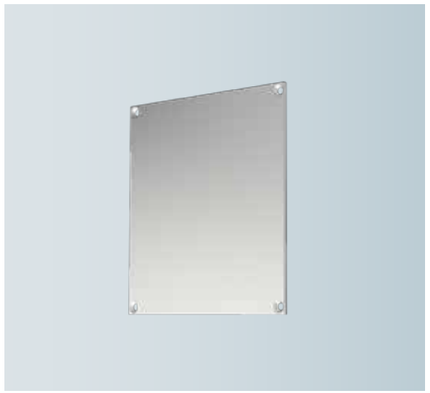

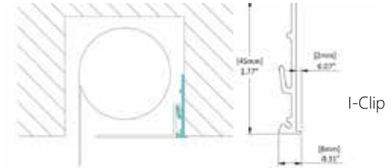

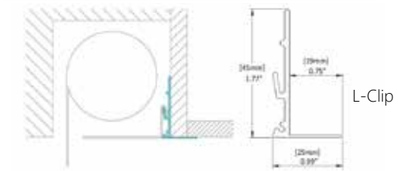

## End Plates

For projects with pockets that are in plain view, install the proper metal end plates to give the pocket a finished look.

L & I Closure Clips are suitable for installations where roller shade units are recessed inside a pocket and adequate fixtures are available for a Closure Clip to be secured. The Closure Clips offer a simple and cost effective option to the traditional pocket system.
