

A modern building with light-colored wood cladding and black window frames. The building features large glass windows and a black awning over the entrance. In the foreground, there are two black planters with green grass. The sky is clear blue.

SHADING THE MODERN OUTDOORS

Premium systems for design professionals and discerning homeowners.

 **SHADES BY MATISS**

SMART EXTERIOR SHADING BEGINS HERE

At Shades by Matiss, we bring a curated selection of high-performance shading solutions designed to meet the demands of modern architecture and refined outdoor living. Our exterior shade program combines the precision-engineered Renson® 100 Slim System, and our versatile ZipScreen system – each offering a balance of design, durability, and effortless control.

Whether you're an architect, integrator, builder, or homeowner, our solutions elevate comfort, optimize energy efficiency, and enhance the beauty of every space.

For Architects & Designers

- Minimalist aesthetics with concealed hardware
- High-spec integration with modern façades
- CAD-ready specs and modular options

For Dealers & Integrators

- Motorized exterior shade systems for smart control
- Lead times and support built for project timelines

For Homeowners & Developers

- Stylish, convenient comfort
- Reliable weather protection and energy savings
- Trusted brands, backed by warranty and service

Weather & Insect Protection

Keeps out wind, bugs,
glare and UV rays

Modern Architectural Appeal

Clean lines and custom
finishes for seamless
integration

Exterior drop screens offer a powerful combination of style and performance – delivering sun, wind, and insect protection while preserving views and enhancing architectural appeal. Fully motorized for convenience and comfort, these systems help reduce solar heat gain, protect outdoor furnishings, and extend the use of patios, pergolas, and outdoor living spaces.

From design-build professionals to homeowners, drop screens provide flexible, scalable shading with a sleek, modern look. Shades by Matiss offers two performance-driven options—Renson® and ZipScreen®—to meet the varying needs of residential and commercial projects.

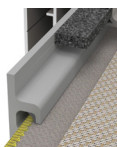

The Gold Standard in Outdoor Shading

Engineered in Belgium and trusted by architects worldwide, the RenSON 100 Slim System sets the benchmark for modern exterior shading. With an ultra-slim cassette, exceptional wind resistance, and seamless wall integration, this drop screen solution delivers refined aesthetics without compromising on performance.

Designed to enhance indoor comfort, reduce solar heat gain, and maintain exterior sightlines, the 100 Slim is as intelligent as it is elegant—ideal for high-end residential and commercial projects alike.

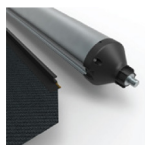

Zipper Tension Technology

Screen zips into dual side channels eliminating flapping and preventing tears as it lowers.

Connect & Go

Fast, safe fabric set installation and disassembly.

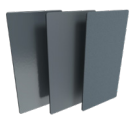

Unique Fabric Tubes

Detachable click-profile allows quick, tool-free fabric replacement.

Side Channel for Cables

Discreetly conceal the motor's power supply cable using the extra channel within the side channel.

Coating & Color Options

Select from glossy, matte, or textured finishes in any RAL color.

Key Benefits

- Ultra-slim 110mm cassette profile
- Designed for minimal visual impact
- Integrated fabric tension system for a smooth, taut appearance
- Powder-coated aluminum with a wide range of RAL colors
- Engineered for precise, flush installation
- Maintenance-friendly and built for long-term durability

Certified Performance

Max width: up to 20 ft.

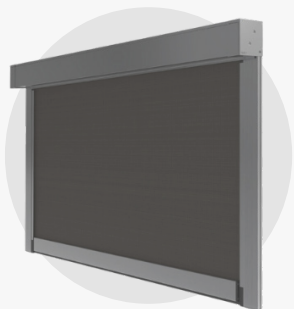

Max drop: up to 13 ft.

Wind resistance: Up to 80 mph

Fabric Options: Screen 5% and 10% openness, and privacy

Integration: Surface-mount, recessed, or reveal-install options

Motorization: Compatible with Somfy® RTS or SDN, Automate®, and building automation systems

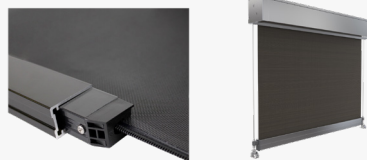

Flexible Performance, Everyday Value

Shades By Matiss' Zipscreen system is a cost-effective exterior shading solution, engineered for projects where budget and performance must align. It delivers solar protection, privacy, and wind stability with a sleek, modern look that complements today's architecture.

A trusted alternative to premium systems, Zipscreen offers durability and functionality—ideal for builders, contractors, and homeowners seeking practical shading without sacrificing style.

Configuration Options

Select from zipper or cable wire-guide systems.

Color Options

Five architectural color finishes available.

Certified Performance

Max width: up to 23 ft.

Max drop: up to 16 ft.

Wind resistance: Up to 87 mph

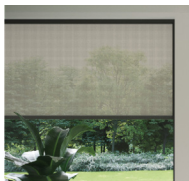

Fabric Options: Screen, 5% and 10% openness, and privacy

Integration: Surface-mount

Motorization: Compatible with Somfy® RTS or SDN, Automate®, and building automation systems

Tailored Light Control with Texstyle® Solar Screens

Select from premium solar screen fabrics in a wide range of colors and openness levels—5%, 10%, or full privacy—to match your design needs and visibility preferences.

Light Fabric

Allows more daylight to enter, reducing the need for artificial light.

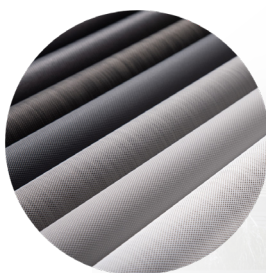

Dark Fabric

Provides the best view to the outdoors.

Privacy Fabric

Minimizes view-through and natural light from entering.

Smarter Motorization for Seamless Outdoor Living

All Shades By Matiss exterior shading systems are powered by Somfy –featuring advanced Maestria™ and Sonesse® motors with options for wireless or hardwired RTS and SDN ecosystems—or by Automate®.

Designed for both residential and commercial applications, these motors offer precise control, seamless integration, and reliable IP44-rated performance for the outdoors.

Radio Technology Somfy

AUTOMATE®

POWERED by
somfy®

Control Options & Integration Benefits

Automatic Sensors

Automate the operation of SBM's exterior shading solutions based on the weather (wind, sun, and rain) while maximizing protection and energy-efficiency.

Remotes & Wall Switches

Control your outdoor shading solutions at the touch of a button.

Advanced Control & Integration

Add app-based, voice, or third-party home automation controls with the Somfy Tahoma® Hub or Bond Bridge Pro for a personalized experience.
