* inquire for out of spec possibilities

If customers provides their own tracks for ripplefold workroom needs to have carrier count for the drapery to mach.

4" Bottom Hem (Sheer and Lined)

Euro Hem (Sheer Only)

Ripplefold Tape

Blind Stitched Side Hem

Ripplefold is an ultra-contemporary style of traversing drapery panels with a distinctive S-curve ripple effect. The ripples are created by the chosen carriers corded together to create that consistent wave varying from 60%, 80%, 100% and 120% fullness.

Ripplefold™ for Butt Master

To help determine which system is right for your project, use the guideline below to select the best fit.

Includes one carrier (button position only) for attachment to master.

Pleated Style Specification	
Fullness Options	x 2, x 2.5
Liner Options (White Color Only Supplied by SBM)	Unlined, Privacy, Blackout
Stacking	One Way Right, One Way Left, Split
Master Carrier Options	Overlap
Side Hems	1.5" Blind Stitched
Bottom Hem Options	4" Blinds Stitched (Sheer or Lined) Euro Hem (Sheer Only)
Header Options	Standard Tape, 4" Header
Minimum Width*	25"
Maximum Width*	300"
Minimum Height*	60"
Maximum height*	216"
Weights	Sheer – lead string inside of hems for Euro Style Sheer, Non-sheer – square weights in corners for 4" Bottom Hem Style
Returns	Standard is 3 ½" unless otherwise specified
Seam Exposure	Ripplefold draperies made in multiple widths may have visible seams. Workroom may railroad fabric to avoid seams where possible.
Pleat Options	Double Stitch Top, Double Stitch Bottom Tripple Stitch Top, Triple Stitch Bottom
Pleat Distance	3.5" and 4" varies, based on fullness, final required width and material limitations

4" Bottom Hem (Sheer and Lined)

Euro Hem (Sheer Only)

Sewn In Adjustable Plastic Hook

Blind Stitched Side Hem

* inquire for out of spec possibilities

Overlap Master

The Triple Pinch Pleat Bottom Stitch is the most popular and traditional style of pleat for a traversing drapery. Tight and neat top stitch gives a nice minimalist look to the drapery. Similarly to the traditional Triple Pinch Pleat, the Double Pleat Style has two folds for each pleat instead of three. The Double Pleat Top Stitch style has the folds of each pleat neatly tacked at the top. Box Pleat is modern interpretation of a traditional pleated drapery, pleats are inverted.

NeoTrak Pulse (Battery/AC)

*In case of right pack:

NeoTrak Pulse (Battery/AC)

i In case of split rail use the rail connector and the split belt connector.

i Optional: Overlap carrier (This article replaces CC1025 and CC1026)

*In case of right pack:

NeoTrak Glide (Manual)

NeoTrak Glide: Pleated Style

NeoTrak Glide: Ripplefold Style

Classic Flat Style

This traditional roman shades folds neatly when raised and lies flat when lowered. These shades work well with any fabrics and are highly recommended for patterned fabrics.

Knife/Back Pleat Style

Doweled pockets on the back of the shade form decorative seams on the front of the shade. These shades work best with solid fabrics and patterned fabrics.

Ribbed/Front Pleat Style

This style is a reversed Knife pleat with the pockets to the front of the shade, accenting each pleat. These shades work best with solid or textured fabrics.

Roman Shade Specification	
Liner Options (White Color Only Supplied by SBM)	Unlined, Privacy, Blackout
Pleat Style	Ribbed/Front Pleat Knife/Back Pleat Classic/Flat
Side Hems	1.5" Blind Stitched
Bottom Hem Options	1.5" Blinds Stitched (Sheer or Lined)
Minimum Width*	24"
Maximum Width*	156"
Minimum Height*	36"
Maximum height*	156"
Seam Exposure	Ripplefold draperies made in multiple widths may have visible seams. Workroom may railroad fabric to avoid seams where possible.
Pleat Distance	6" Standard
Alignment	Top, Bottom. Standard
Operation	Metal Chain Standard The shade waterfalls off the front of the headrail, the controls are hidden behind the shade or Motorized
Motorization Option	Rollease Acmeda

Back Safety Tape

Our roman shades feature a slim profile without a valance top, and attach to the rail with a velcro. The Back of the shade has a safety compliant tape.

Chain Control shades are supplied with a chain hold tension device.

All Classic, Knife Pleat and Ribbed Pleat Roman shades are constructed with support rods that are hidden between the face fabric and the lining at no additional charge. Support rods provide stability and crisp, neat folds.

All Soft Roman Shades are finished at the bottom with a neatly sealed bottom hem. 1.5" tunnel with internal metal hembar.

Measuring Notice: Workroom will deduct 1/8" for inside mount

Due to fabric content, some fabrics are not suitable for fusing. One yard of fabric may be requested for testing. For the best results please choose dimensionally stable drapery fabrics.

Plaids, Silks, 100% synthetic, tapestry, very heavy fabrics, loose weave linens, sheers and fabrics with raised patterns are not suitable for fusion. Because of the nature of fabric, striped patterns may not be perfectly straight. Rare or irreplaceable fabrics should not be sent in for fusing. All fabrics are subject to approval.

C.O.M Yardage

To determine the amount of yardage required for a C.O.M. shade call customer service with your shade style.

Knife Pleat and Ribbed Pleat shades may have noticeably different top or bottom fold sizes when multiple shades with different lengths are in the same room.

The standard construction aligns the pattern and folds starting at the BOTTOM of the shade. Matching starting from the TOP is a no charge option but must be requested.

Top alignment is recommended for side by side window openings of different heights
