

STAR

STAR BLACKOUT

 **SHADES BY MATISS**

Star brings softness, balance, and flexibility to residential interiors through thoughtfully designed light control. Offered in both transparent and dimout options, the collection features five carefully coordinated colors created to work together in dual-shade applications. The result is seamless layering—daylight when you want it, privacy when you need it—without visual compromise. A rich, tactile texture and matching front-to-back coloration (no white backing) ensure a refined appearance from every perspective, making Denali an ideal choice for living spaces where comfort, cohesion, and design take priority.

STAR
