 **SHADES BY MATISS**

A LEGACY OF EXCELLENCE IN MOTORIZED SHADING

Shades By Matiss is a nationally recognized leader in custom shading solutions, offering cutting-edge motorized systems tailored to residential and commercial applications.

With over 25 years of expertise, we specialize in delivering advanced roller shades, architectural window treatments, and innovative shading technologies that combine thermal comfort, aesthetic versatility, and seamless functionality.

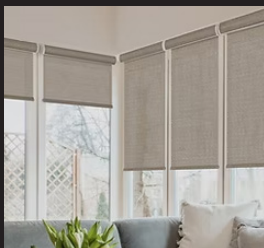

Our trusted partnerships with industry leaders such as **Somfy®** and **Automate®** allow us to provide scalable, high-performance motorized systems designed for any space.

Whether integrating **Somfy Power over Ethernet (PoE), Zigbee & RTS, ARC™ Radio, or RS485 systems**, we deliver solutions that work flawlessly across platforms, ensuring luxury, convenience, and precision control.

From builder-grade manual systems to high-end, customized motorized shading solutions, we offer a comprehensive range of products that prioritize sustainability, quiet performance, and premium design.

With a dedicated in-house workroom, we manufacture our own soft goods, specialty shades, and external shades—truly making us a one-stop shop for shading entire projects.

Combined with nationwide manufacturing facilities in NJ, IL, and CA, we deliver fast lead times of 2–3 weeks while maintaining the craftsmanship and innovation that define our brand.

ONE PARTNER FOR ALL SHADING SOLUTIONS

At Shades By Matiss, we are your trusted partner for all shading needs, offering a comprehensive range of custom solutions for residential and commercial projects. From advanced motorized systems to chain and spring-operated options ideal for ancillary spaces, we deliver exceptional quality and performance across every shade type we manufacture, ensuring every project is tailored to meet diverse budgets, aesthetics, and functional requirements.

Motorized Solutions | Residential

Innovative Motorized Solutions for Residential Spaces

Somfy® and Automate® provide reliable, smart motorization solutions tailored for residential shading applications. With wireless options and seamless integration, these systems enhance comfort, convenience, and energy efficiency.

POWERED by

somfy®

AUTOMATE™
A DIVISION OF ROLLEUSE ACMEDA

PoE, Radio Frequency & Zigbee Solutions

Somfy's **Power over Ethernet (PoE) Gateway** simplifies the integration of motorized shades and draperies into PoE control systems, providing seamless power and connectivity through a single Ethernet cable. This innovative solution offers energy efficiency, easy installation without an electrician, intuitive integration with third-party systems, and simple web-based commissioning, making it ideal for both new and existing projects.

Powered by the **Zigbee 3.0** protocol, Somfy motors create an interoperable ecosystem of IoT devices for smart homes. Ideal for residential use, these motors ensure seamless integration and user-friendly control, offering unmatched reliability and security.

Somfy's proprietary **Radio Technology Somfy® (RTS)** platform supports both wired and wireless motor options for interior and exterior shading. RTS delivers omnidirectional radio signal control for convenience and ease of use within a 65-foot range.

Automate's **ARC™ (Automate Radio Communication)** technology is a proprietary 433MHz bi-directional communication protocol that connects motors, controllers, and accessories into a seamless system. ARC™ motors work with or without a hub, offering reliable control whether operated independently or through a smartphone app. Bi-directional communication provides real-time feedback on shade positions and motor battery health, with optional app notifications to alert users when recharging is needed.

somfy®

AUTOMATE®

Radio Frequency

Communication Protocol

zigbee

ARC

Power Options Available

PoE

Wired AC/DC or Wireless Li-On

Shade Types Supported

Interior Shades: Rollers, Blinds, Drapery

Controllers

PoE Touch Panel Room Controller

Yisa® 1 or 5 Channel Remote

In-wall keypads, Remote Controls, Sun, Motion, & Wind Sensors

Advanced Control Options

PoE Gateway for 3rd Party Integration

Tahoma® Switch for App and Advanced Controls, or Bond Bridge Pro*

Hub for App and Advanced Controls, or Bond Bridge Pro*

Works with: Voice Assistants

Amazon Alexa, Apple HomeKit, Google Home Assistant

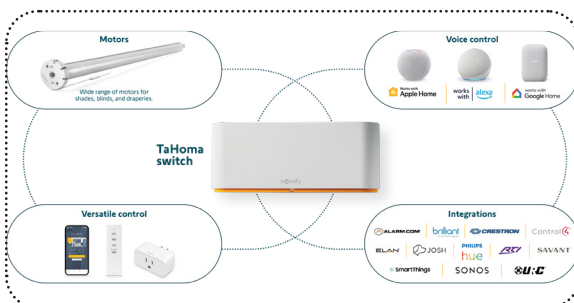

Works With: Home Automation Systems

Cisco, Clare One, Control4, Crestron, Elan, QSC, RTI, URC

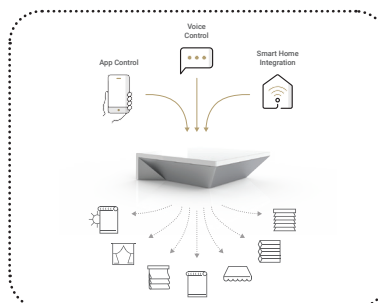

Alarm.com, Brilliant, Crestron, Control4, Elan, Josh, Philips Hue, RTI, Savant, SmartThings, URC

AMX, Brilliant, Clare Controls, Control4, Crestron, Elan, HomeSeer, Lutron, Savant, RTI, URC

Advanced Control Ecosystems & Options

Somfy Zigbee & RTS Ecosystem

Automate Hub Ecosystem

*Pair Somfy or Automate shades with the **Bond Bridge Pro** for advanced controls through the Bond App and 3rd party integration.

Motorized Solutions | Commercial

Advanced Motorized Solutions for Commercial Projects

For large-scale projects, Somfy and Automate deliver robust, scalable motorized systems designed to meet the demands of commercial environments. These solutions integrate seamlessly with Building Management Systems (BMS) to maximize automation and efficiency.

Somfy Digital Network™.

Intuitive, Scalable, and Seamless

The Somfy Digital Network (SDN) combines innovative hardware and software to deliver a user-friendly, adaptable, and scalable solution for modern building control. Designed for seamless integration and effortless expansion, SDN empowers you to customize controls to meet unique project needs while simplifying deployment for a hassle-free experience.

Motors

Engineered for quiet operation, the Somfy Sonesse 40 RS485 (SDN) motors come in various torque levels and are compatible with AC and DC power. These versatile motors are ideal for every indoor setting. They feature position control and provide feedback for precise adjustment.

Act for Green®

Somfy's voluntary initiative, which aims to reduce the environmental impact of products throughout their life cycle.

Works with WELL

Certification confirms that this product meets WELL feature requirements and is licensed to use the Works with WELL mark.

PEP ecoPassport

LEED v4.1 (1 credit) with products having an EPD (Environmental Product Declaration) with a focus on sustainability.

UL Listed motor

Simplifies specification & commercial installations by satisfying inspectors requirements the first time.

Bus Power Source

An integral part of any SDN control, these devices support small to large SDN segments. By adding the Bus Booster, you can accomplish larger shade deployments.

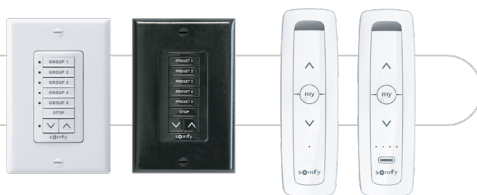

Integration Devices

Whether you're looking to integrate with AV systems, lighting controls, or BMS systems for occupant comfort, Somfy dedicated devices enable smooth integrations.

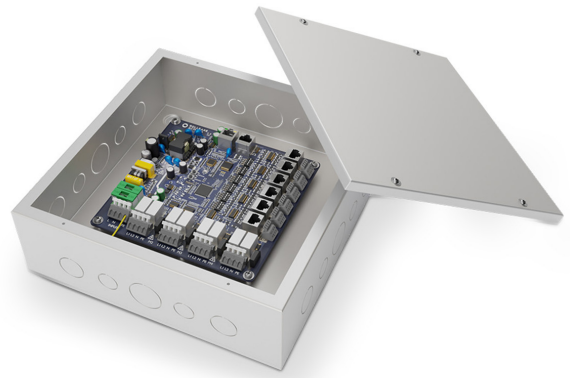

Bus Distribution Devices

Somfy Data Hubs serve as the backbone of the system facilitating communication. For low-voltage solutions, Somfy's SDN PowerConnect™ Panels combine power and communication for centralized control.

Local Control

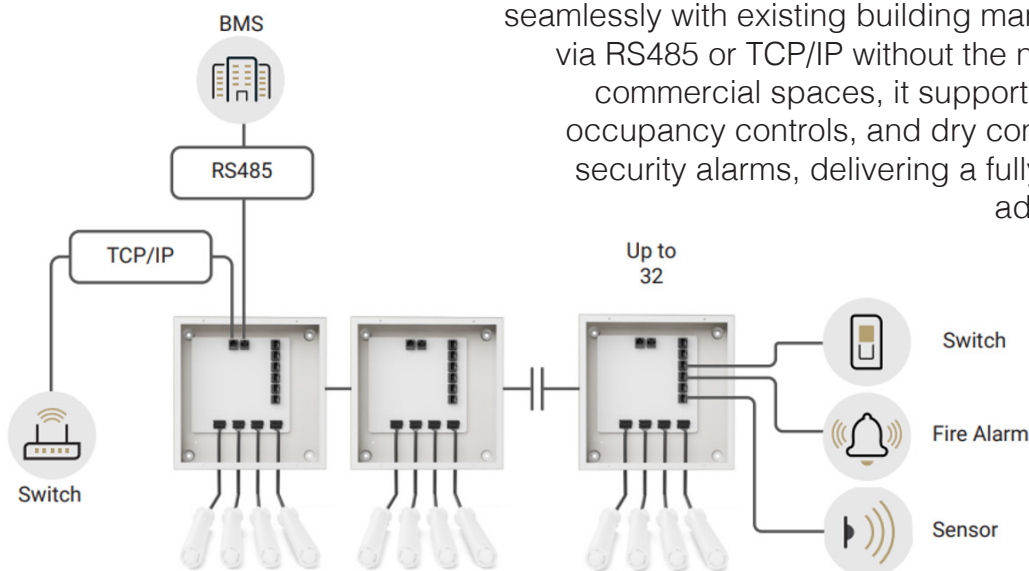

Somfy keypads and remotes offer visual appeal and remarkable ease of use. They are available in different configurations and colors to match your needs.

Automate® QuadLink

Scalable, Seamless Motor Control

The Automate QuadLink 4-Channel Motor Controller offers a scalable, efficient solution for controlling up to 128 motors across 32 devices, with precise shade positioning for enhanced customization. Compact and easy to install, it integrates seamlessly with existing building management systems (BMS) via RS485 or TCP/IP without the need for rewiring. Ideal for commercial spaces, it supports integration with lighting, occupancy controls, and dry contact systems like fire and security alarms, delivering a fully automated, secure, and adaptable shading solution.

Your Trusted Partner for Shading Excellence

At Shades by Matiss, we take pride in offering unparalleled shading solutions tailored to every project, no matter the shade type, market, or application. Whether you're designing for a sophisticated residential space or a large-scale commercial development, our expertise, innovative products, and commitment to quality make us the ideal partner to bring your vision to life. Trust Shades by Matiss to deliver exceptional shading systems that combine style, functionality, and performance to elevate any space.
