

SKYLIGHTS

The Zipscreen Skylight system offers a refined solution for light block out in any horizontal or slopped windows. Using secure zip locking channels, the system achieves perfect tension of fabric in all directions during operation and while stationary. Electronically operated, it's the ultimate system for energy saving throughout buildings, adaptable for both commercial and domestic applications. The Wire Guide Skylight offers a cost effective solution giving flexibility for a range of installation scenarios.

AESTHETICAL FEATURES

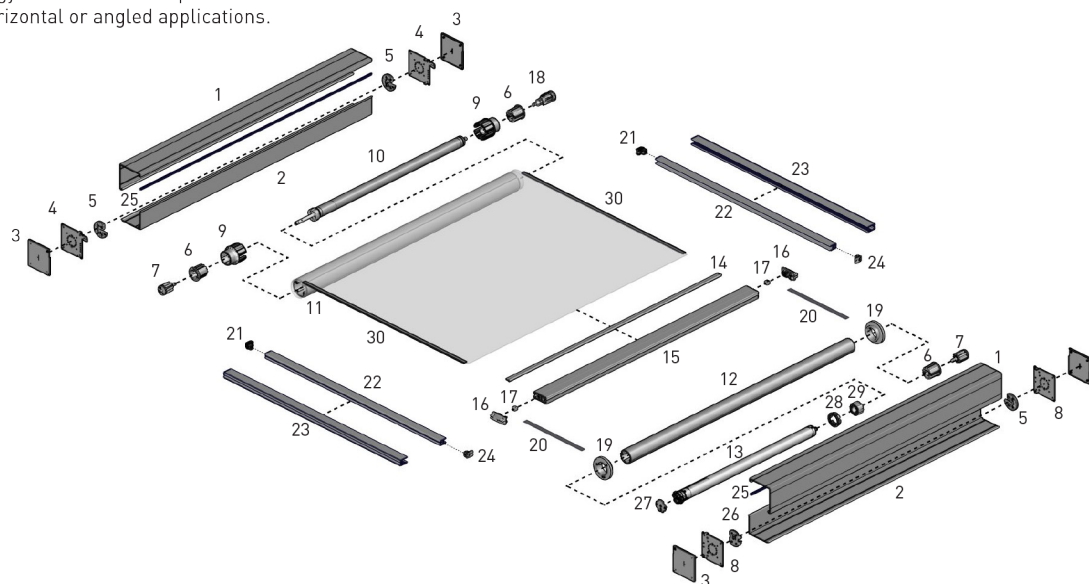

- Contemporary square architectural design.
- Custom colour matching achievable
- No visible tape/cord for Zipscreen Skylight

PRODUCTION / ASSEMBLY FEATURES

- Removable front covers for ease of maintenance and assembly.
- Uses S60 components for large applications.
- Zip reducers designed to accommodate zip build up preventing fabric ripples.

FUNCTIONAL BENEFITS

- Further enhances energy conservation compared to a standard roller blind.
- Versatile system for horizontal or angled applications.
